These tables compliment a report written at the conclusion of a survey of FY 2017-18 water, wastewater and residential irrigation rates and rate structures conducted by the New Hampshire Department of Environmental Services, Tighe and Bond, and the Environmental Finance Center at the UNC School of Government. Rates and rate structures are analyzed for 146 rate sheets of 140 local government and non-local government utilities throughout the state. To download the *report*, use the interactive NH Water and Wastewater *Rates Dashboard* designed to allow you to compare rates using multiple selection criteria, and to *view rate sheets* of individual utilities, please visit:
