These tables compliment a report written at the conclusion of a survey of FY 08-09 water, irrigation and wastewater rates and rate structures conducted by the North Carolina League of Municipalities and the Environmental Finance Center at the UNC School of Government . Rates and rate structures are analyzed for 498 local government and not-for-profit utilities throughout the State. To download the *report* , use interactive *Rates Dashboards* designed to allow you to compare rates using multiple selection criteria, and to *view rate sheets* of individual utilities, please visit:
