New Hampshire Water and Sewer Rates Tables

Rates effective as of January 1, 2024

These tables are *one* in a variety of resources created from the 2024 NH Water and Wastewater Rates Survey, which includes data from 82% of rate-charging utilities in the state. Click the links at the right to view additional resources designed to keep your utility informed.

[View the Rates Dashboard](#)

[View Your Utility's Rate Sheet](#)

Additional Resources to learn about:

[Elements of a rate structure](#)

[How to compare rates between utilities](#)

[Creating a communication strategy for changing your rates](#)

Survey Stats

122 utilities participated in this year's rate survey

All bills have been standardized to monthly- equivalent amounts

FY 23-24 Table of Participating Utilities and Rate Structures

Table of Participants	Residential Services	Commercial Services
-----------------------	----------------------	---------------------

The tables below outline the participants of the 2024 New Hampshire water and wastewater survey. Details are provided below using data gathered by the EFC, census data from the U.S Census Bureau's 5-year American Community Service estimates for 2017-2021, and the EPA's Safe Drinking Water Information Sys..

FY 23 - 24 Table of Rate Structure Details and Bill Amo..

Table of Participants
Residential Services
Commercial Services

Choose table
Bill Amounts

Please choose your table to the right. The Rate Structure Details table will outline the characteristics of the rates charged to. The Bill Amounts table will show the bill amounts charged to customers at various bill amounts.

All bills are calculated assuming a 3/4 or 5/8 inch meter size.

Rate Structure Label	Service Type	Inside/ Outside	Operating Ratio (incl. Depreciation)	Estimated Service Pop	Residential Bills at Various Consumption Levels
